Overview

Final-year Information Technology student with a strong interest in Business Analysis. I'm looking to gain hands-on experience in real-world projects where I can improve my skills in requirement analysis, stakeholder communication, and supporting development teams in building effective software solutions. Over the next 1-2 years, my goal is to become a technically grounded Business Analyst who understands how software is built and how to align it with actual business needs.

EDUCATION:

Bachelor of Information Technology - Open University 2021 - 2025

Active member of the Tech Club: participated in internal hackathons focused on business process automation
